ABSTRACT

This teacher's guide and accompanying videotape present the JASON Project. The guide features a workbook format using an interdisciplinary approach to include geography, climate, biology, history, geology, culture, and literature. The JASON Project targets grades 4-9 and involves real life science with the inquiry approach and multimedia components. Units include: (1) Geography and Climate; (2) History and Culture; (3) Frozen Features; (4) What Lives There?; and (5) Local Field Investigation. Six student maps are also included. (YDS)
